Despre noi

GUST. Superior, intens, autentic. Ascultam ritmul naturii, respectam sezoanele si cultivam in gradina descoperita. Nu fortam plantele sa se dezvolte si nimic nu este artificial sau sintetic.

SUSTENABIL. Mai mult decat organic. Cultivam selectiv, in functie de compatibilitatile plantelor si prin rotatie pentru a intretine in mod natural reseaua de microorganisme si pentru a conserva cantitatea de nutrienti din sol.

SANATOS. Sol sanatos. Nu folosim ingrasaminte sintetice, insecticide, pesticide sau ale substante nocive pentru sol si planta.

DIVERS. Texturi diferite, culori inedite, arome multiple. Diversitatea speciilor de plante cultivate este critica in succesul unei gradini de legume.

CALITATIV. Se livreaza doar ce este la cel mai inalt nivel de calitate, fara exceptie.

FRESH. Totul este proaspat cules de pe strat in ziua expedierii.

FLEXIBILITATE. Cultivam la cerere, rezervam o anumita cultura si oferim produsele in stadiul de dezvoltare dorit.
